COUNTY CONVENTION.

The Republicans of Mason Will Meet in This City September 3d.

At a meeting of the Republican Executive Committee of Mason County, held July 19, 1861, it was decided to hold a convention September 2, 1861, at the Court House, at which time the names and purpose of nominating candidates for the various county offices and Representative in the State Legislature, will be voted for at the coming November election.

Pursuant to these instructions, the Republicans of Mason County will meet at their respective voting places on Saturday evening, September 3, 1861, and the delegates to the County Convention will be seated at the courthouse in Maysville at 7 o'clock p.m. on Monday, September 2d. These delegations will be entitled to one vote each, and may be unseated at the discretion of a majority of the votes of the present present at the meeting. The names of the candidates for the various county offices will be voted for at the same meeting, who voted for the Republican ticket in November, 1860, or who intends to vote for the Republican ticket in November, 1861. No person will be entitled to one vote in the County Convention as the following rule will allow: One vote for every \$100 and one-half in taxes paid by the voter in the various assessors in November, 1860. The preceding meetings shall also instruct for candidates for Magistrate in the several districts, and for the various county candidates for said offices at the said County Convention. Each precinct will be entitled to votes as follows:

First Ward	2 Seats
Second Ward	2 Seats
Third Ward	2 Seats
Fourth Ward	2 Seats
Fifth Ward	2 Seats
Plunkett No. 7	2 Seats
Douglas No. 8	2 Seats
Milner's No. 9	2 Seats
Vernon's No. 11	2 Seats
General No. 12	2 Seats
Total	12 Seats

The preceding meetings will be seated to order by the Preacher Committees, or in absence by the Republican voter present during meeting, by the voting places.

The County Convention will be seated to order by the Chairman at the courthouse at 2 o'clock p.m. Monday, September 2d, when the convention will organize, elect a president, and transact all other business as may lawfully have been done.

W. E. STACEY,  
Chairman Mason County Executive Committee.  
W. D. COCHIN, Secretary.

The "Gov." is still at it. He has just pardoned WILLIAM CHASTAIN, sent up from Madison county for two years for maliciously curving a fellow-man.

This issue of THE LEDGER—twelve pages—appropriately be called a "peach," although it can be "real" without a "blush." It's a great paper, and reflects the wide-spread business of Maysville. Messrs. SPEIER and MERRITT, who projected it and furnished the "written" features, have done their work well.

The good people of Glasgow, Scotland, says The Times-star, had a shock and an awakening. They have been trying municipal ownership and had almost concluded it was the cheapest and best thing on earth, when along comes an official announcement that the tax rates must be increased next year by at least two cents on the dollar. What for? In order to meet the ever-increasing expenditures of the municipality. Simply another idol smashed.

## OF LOCAL INTEREST.

Some People We Know and We Will Print to Hearing About Them.

This is purely a local event.

It took place in Maysville.

Not in Buffalo or New York.

You are asked to investigate it;

Asked to believe a citizen's word.

Any article that is indorsed at home.

That obtains resident advocates is more worthy of confidence.

Than a far off foreign article.

Testified to by unknown people.

Mr. C. C. Chisholm of 343 East Second street says:

"Mr. Chisholm speaks in highest terms of Dr. Doan's Kidney Pills. He procured them at J. J. Wood & Son's drugstore, corner of West Second and Main streets, where he has purchased many articles of the same kind recently. I have heard other express their appreciation of Dr. Doan's Kidney Pills."

A medicine which cures kidney trouble is a most desirable one of which to know."

## QUESTION ANSWERED.

Now Again Fortune has the largest size and most numerous in the civilized world. Your aunts and grandmothers never thought of using any other. Fortune is the only safe and reliable brand of soap. It is the only soap that removes all skin diseases, acne, scrofula, ringworm, and skin eruptions.

Fortune Procto-Rx to clean out the system.

Then used August Pill to clean out the system.

Then used Fortune Pill to cleanse the action of the liver, stimulate the nervous and regenerative action of the system, and that is all there is to it. Fortune is the only safe and reliable brand of soap.

You may need a few doses to get rid of your skin disease.

## THE CITY FLOODED.

A Cloudburst Over the Eastern Portion of Cleveland Causes a Loss of About \$1,000,000.

### NO FATALITIES HAVE BEEN REPORTED

Storm Was the Heaviest Since the Establishment of the Weather Bureau Forty Years Ago.

The Surging Waters Spread Over an Area Nearly Eight Miles Long and About One and a Half Miles in Width.

Cleveland, Sept. 2.—With the breaking of dawn Sunday morning the citizens of Cleveland awoke to see upon a scene of desolation and destruction caused by a raging flood. While the entire city was more or less affected, the great volume of raging water vented its anger over miles of the eastern portion of the city and caused an amount of damage approaching \$1,000,000.

The apparent overflow was caused by a terrible rain that commanded to fall shortly after 2 o'clock, turning into a perfect cloudburst between the hours of 3 and 5, and then continued with greater force until nearly to eleven o'clock, causing according to the weather officials, a inundation that ever swept over Cleveland since the establishment of the government bureau in this city over 40 years ago. That no lives were lost is nothing short of a miracle, as the stories of thrilling escapes from the water on several occasions in principal residential streets of the city are many.

The surging waters spread over an area in the east end nearly eight miles long and a mile and a half wide. Great Volumes of Water.

Great volumes of water poured over from boats and gondolas broken down in every street, swelled streams, rushed through gutters, and ran out on East Prospect street, running like a mill race down Euclid Avenue to Euclid Avenue, and then on to East Park place, where houses were undermined as though built of straw and almost incredulously damage done to them.

Over a large share of this extensive residence territory the water raged with terrible force, varying in depth from one to six feet. Culverts, bridges, and docks were torn down and for hours nothing seemed capable of stopping the flood.

Hundreds of residents, who were imprisoned in their beautiful homes like stranded islanders, were almost panic stricken. Dismay signals were flashed above the city speedily as the disabled telephone system would allow the and the worse of rescue came.

Rescue from Perilous Positions.

Roughly pulled back and forth assisting while families from perilous positions, but these proved pitifully inadequate, and it was soon found necessary to go to the extraordinary precaution of calling on the life saving crew of the river, a distance of seven miles.

The life boats were quickly landed on wagons and hurried to the scene of destruction.

The torrent surged with awful force for hours in Deering street, from Fairmount to the Boulevard, and over a dozen families were pinned in like rats in a trap, with water ten and six feet deep surrounding their homes. At this point the life saving crew worked valiantly, and, assisted by squads of firemen and policemen, finally succeeded in landing the terror-stricken people in places of safety. The fear was greatly enhanced by the momentary expectation that the great Shaker Heights dam would break loose and belch forth terrible destruction.

Graves Undermined.

Shortly before noon the torrent swept along, hurling a score of graves in St. Joseph's cemetery at the corner of East Madison and Woodland, and the bodies were soon being tossed about in the waters.

Fully a dozen of the corpses were washed into gutters and had not been recovered yesterday morning.

The great flood covered over the banks of Don and broke all along the Boulevard and caused damage that it will take months to repair. Great jagged holes are torn in the beautiful driveway, and the look of ruin stretches in every direction.

Gordon, Wade, Parks, on the east side, and Woodland park, in the south side, where the water also did great damage as it leaped over the banks of Big Creek, are damaged to an amount figured at \$100,000.

The street railways will suffer an immense loss, extending in varying degrees over every portion of the city.

### TRADE IN CUBA.

The Exports and Imports During the First Seven Months of This Year.

Washington, Sept. 2.—Some figures relating to the export and import trade of Cuba for the first seven months of this year, compared with similar periods in 1900, are as follows, based on the division of interior affairs, war department, indicate that radical changes are going on in that trade, and that the United States and other North American countries are the sufferers in that turn of trade. It is known that the imports from Cuba to the United States mentioned in the table were all shipped in 1900, as against \$13,000,000 for the same period last year, while the imports for the same period were worth \$20,000,000, as against \$9,000,000 for the corresponding period in 1900. The imports from the United States amounted 62 per cent, and that of other North American countries 15 per cent. Cuba shipped to the United States during the same period 111 per cent, more goods than during the preceding year, and to the other North American countries 188 per cent, more.

Indiana Found Bodies of Two Men in a Broken Basket at the Mouth of Moon River.

Kosciusko, Ind., Sept. 2.—Walter W. Cobb and G. W. Shields, who have just returned from a 45 days' trip through the Hudson Bay region, had been reported missing by relatives. The far north may yet relate to the missing explorer Andree, and one of his two companions.

At Moose Factory, a Hudson bay trading post at the mouth of Moose river, they were surprised to learn that a party of Indians, who had been down from the far north last spring told of the finding of the bodies of two white men at a point about 90 miles north of Moose Factory. The story of the Indians was that the bodies were found in a broken basket, in their description of which seemed to indicate a basket of a balloon.

THE EXPIATORY MISSION.

It is Doubtful Whether Prince Chun and His Party Will Go to Berlin.

Berlin, Sept. 2.—It is now very doubtful whether there is a distinct and final end to the expatriate Chinese in Germany, who have been here since the fall of the Manchu dynasty. Prince Chun, who will come to Berlin to make formal apology for the murder of Baron Ketteler. Members of the expatriate mission say: "Under present conditions we can never go to Berlin but could rather die there accept them."

It appears that they object particularly to Prince Chun's attendants prostrating themselves before Empress William, inasmuch as this is a special honor reserved for the emperor of China. The Chinese have a recognition of the latter's equality.

Four More Bodies Found, Making a Total of Twenty-Five So Far Recovered.

## DUQUESNE PLANT.

Strike Matters Centered There and it is Reported That the Situation is Critical.

### ALL LADLE MEN IN THE MILL WENT OUT

Men Were Brought From the Bessemer Department to Help Out and It is Running Full.

The Amount of Strike Benefits to Be Paid the Strikers Has Been Placed at \$100,000 Every Week.

Pittsburg, Sept. 2.—The principal interest in strike matters Sunday was centered in the Duquesne plant, where the ladle men, who had struck, would make a decided move toward closing down the entire works. The report from there Sunday night said the situation was critical. The two mills met and all first helpers went to work as usual Sunday morning, and all twelve helpers were charged out on second helpers, and all ladle men stayed out. The strikers made a thorough house man all day. At 4 o'clock, the time for helping and ladle men to go on, pickets were posted on the streets and turned back three times, but the old turn is both crippled, but men were brought from the Bessemer department to help out, and the mill is running full. Sixty of the day turn men are off, and the strikers say not a man will report Monday morning.

In the meantime, the mill hands, who had been staying in the mill, must also stay shut down. This mill supplies Monessen, Vandergrift and tin mills, hence the movement is important to the strikers. Mill officials admitted Sunday that a strike is on, but say no serious results will follow.

For a rough estimate of the amount of strike benefits that are to be paid by the Amalgamated association to its striking members, some idle have been placed at \$100,000 every week. This is lessing the number of beneficiaries at 10,000 and the rate per week.

W. E. Williams, president of the association, said that the payments will be made every two weeks, commencing September 14, and will be continued so long as the strike lasts.

THEY STOLE A MARCH.

They Stole a March on Which Was the Party of a Wealthy Unionist on the Way to the Star Tin Mill Captured.

The strikers stole a march on the manager of the Star Tin Mill plant about midnight and took from him nine of a party of 12 non-unionists being taken to the mill.

The men arrived over the Pennsylvania railroad from Philadelphia about 11:30 p.m., and were met by a group of strikers who ordered them to stop, saying that they were safely landed in an omnibus to be driven to the mill at Twelfth street. The policemen at the Union station performed their duty successfully, but after the vehicle left the station it was surrounded by a crowd of strikers. Stones and iron epithets were hurled at the newcomers, and in spite of the efforts of the driver of the bus to speed his team, the strikers reached the mill ahead of the non-unionists, completely overpowering the two policemen and driving Williams and his son, William, Jr., in a horridly maimed. The accident was the termination of a day's outing on the mill.

There is more Calvert in this section of the state than all other states put together, and until the last year was supposed to be insureable. For a great many years doctors and dentists have been compelled to constantly fail to cure with local treatment, pronounced incurable. Science has proven Calvert to be a constitutional disease, and there is no cure for it.

## Maysville Today

Historical Sketches of Some of the Enterprising Merchants and Manufacturing Establishments.

### A HUSTLING CITY

Its Facilities for Manufacturing, Shipping, Etc., are Unsurpassed by Any City of Its Size in the Country. Great Inducements Offered to Foreign Manufacturers to Locate Here.

Maysville is the county seat of Mason County. The census of 1900 gave the city a population of 6,429 within the corporate limits, but this takes no account of the thickly populated settlements, and all the thronging fares leading from the city into the country. Maysville is rich in historic interest and associations, the home of a cultured and professional people, who are perhaps better known throughout the world than any other city of equal population in North America. Maysville has an electric railway and two steam railways that enter the city, namely the C. & O. and the L. & N. The city contains a great many industries that sell their products the world over, among them being a cotton mill employing 225 persons; a flour mill, two distilleries, with an output of 5,500 barrels annually, planing mill, two saw mills, three carriage factories, eight cigar factories, a pulley factory, eight cigar works.

W. E. STALLCUP, Mayor.

enterprises, Maysville offers many advantages through the Board of Trade. Mr. John Duley, president of this body, offers many profitable openings to enterprises that are not now represented. The Elks' Fair, which begins on Wednesday of this week, will be the event of many years, and no right-thinking citizen will fail to do all in his power to boost the fair along. Maysville has four banks with deposits varying from \$100,000 to \$1,000,000, two distillery hotels, several wholesale liquor houses and a bottling works.

The departments of municipal government in make-up and general efficiency compares favorably with similar departments of many of the larger cities, and the cost of maintenance is below the average. Crime is not on the increase, and for a city of its size, it is comparatively free from disorder. The city has suffered no heavy loss from fire for years, due largely to the excellence of the

water supply is adequate for manufacturing and domestic purposes for many years to come.

The wholesale and retail trade of Maysville is of vast proportions, and industries of every description are in a most prosperous condition. The prospects for the future of Maysville by the health department in regard are most encouraging.

W. E. STALLCUP,

Mayor of Maysville, was born at Ripley, Ohio, in 1852. While he was quite young his parents moved to Kentucky, where he has since resided. His early education was gained in the public schools. In 1881 Mr. Stalcup engaged in the cigar business with Smith & Co., and remained with that firm for 17 years. In 1898 he served the city in the capacity of Councilman, and in 1899 was elected to the office of Mayor, his term expiring January 1, 1902. Mr. Stalcup has always been a staunch Republican, and is an independent candidate for re-election in November of the present year. He is well qualified and fitted for the duties of this responsible position, and as a public servant has shown himself to be capable and conscientious, and as a citizen

That his work has been very satisfactory is evidenced from the fact that he is a candidate for re-election in November. He is well qualified in every way for the duties of the position to which he aspires.

MAYSVILLE LAUNDRY.

One of the most necessary and appreciated factors in the city's enterprise is a well equipped and well managed steam laundry. Among the business of Maysville there are none more popular and efficient than Mr. Thos. Guilfoyle. In 1887, this gentleman embarked in the saloon business at the corner of Front and Market Streets. In 1889 he removed to East Second Street, where he conducted a successful business.

In 1887 he was appointed to the police force, while position he faithfully filled to the satisfaction of the public generally. During the years 1888-89, Mr. Guilfoyle was connected with the hotel business, and proved himself very efficient in this line. Personally, Mr. Guilfoyle is a wholesaled man, with a reputation for keeping old friends and making new ones.

Their store is a model establishment of its kind, and on his shelves and counters will be found a large stock of all the delicacies to be found in any establishment of the kind in this part of the State. He embarked in the profession of photography when quite young, and when 18 years of age entered the Cincinnati Art Gallery of E. E. King. Mr. Patton has traveled extensively

Although the little city of Maysville is somewhat limited as to the number of establishments, it is possessed of one that with its rapid growth in the past two years, and the quality of its output considered, has placed it in the front ranks of its kind in this part of the country. We speak of Messrs. Klipp & Brown, manufacturers and dealers in harness, turf goods, robes, saddles, whips, collars, oils, etc. Two years ago these gentlemen erected a handsome two-story brick business block at No. 12 and 14 East Second Street, at which place the present

In 1870 he moved to Lexington, where he established a large wholesale liquor house, which he managed very successfully, and in 1880 came to this city to engage in the liquor business, but about this time he discovered what is known as Bond's Specific. In August of 1897, Mr. Collins again acquired all the stock of the company, but didn't live to realize on his investment, for he died month later. The business was then reorganized by M. J. Collins, H. C. Sharp, H. C. Collins being book-keeper. Later Mr. Sharp retired from the company, when the present firm assumed full

control of the business. They are manufacturers and dealers in rough and dressed lumber, frames, doors, sash, blinds, moldings and all kinds of building material, tobacco hogsheads, etc. Since the reorganization in 1897, new machinery and buildings have been added, which gives this company ample accommodations and equipment for conducting the most extensive business of the kind in this part of the state. In business they are fully aware to the interests of their patrons, and their success, great as it has been, has been eminently deserved.

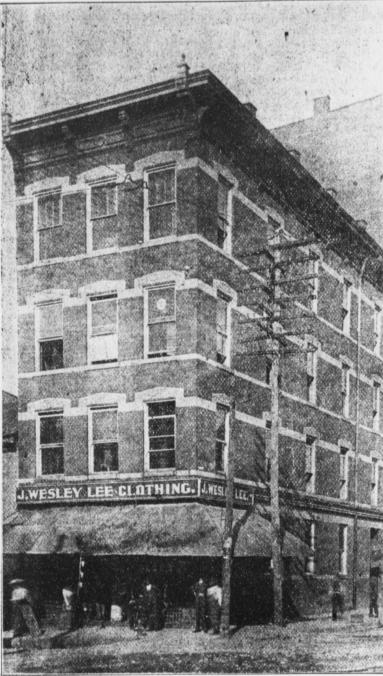

#### MYALL & CO.

The extensive business conducted by these recognized leading manufacturers and dealers in a fine line of carriages, buggies, road carts, harness, etc., was established in 1872 by Messrs. Myall & Shackelford, who conducted the business in a prosperous manner until 1897, when they were succeeded by Myall & Co., who took charge of the business. Since that time it has been conducted on the same general lines and liberal methods which for the past twenty years has maintained its reputation and supremacy among the kindred industries of the city. Their place of business is located at No. 109 West Second Street, and the stock carried is adequate for all demands, both in volume and variety. Their excellence and high standard are maintained regardless of cost; they are nowhere slighted, but are as near perfection as skill and best material and the most improved machinery can make them, and a general assortment of the best and most fashionable articles in their line are kept constantly on hand. Myall & Co. are thoroughly deserving of the large and valuable patronage that is bestowed on them, and intending purchasers will find it greatly to their interests to call and inspect their goods.

#### GEO. H. HEISER.

In writing of the many and varied enterprises of the city, we wish to observe the strictest impartiality towards all, and at the same time give each individual and firm just due. With this thought in view we feel that special mention should be made of the well-known and enterprising wholesale grocery establishment located at No. 117 and 119 W. Second Street, and which has become one of the landmarks of the city. It was established in 1851 by Geo. H. Heiser, who conducted the business very successfully up until the time of his death in August, 1886. The business was then placed under the management of his nephew, Wm. G. Heiser, since which time he has continued to conduct the business with ability and enterprise. This establishment occupies a large three-story brick building, which is completely filled with dry and staple groceries, canned goods, and, in fact, everything desired in the grocery business. The stock is always fresh and up-to-date in all lines handled, and Mr. Heiser does business on the principle that nothing is too good for his customers.

## THE NEW ST. CHARLES HOTEL.

This superb hotel, one of the finest and most popular hotels in Maysville, was opened in 1898. It is said to be one of the most complete and well-managed hostleries in the state, being well equipped and comfortable in all its appointments. The location of the St. Charles is a most desirable one, being within a few minutes' walk of the railroad depots, and the surroundings are most pleasant and delightful. The lavatories and toilet rooms are perfect in construction, and in excellence of plumbing and sanitary condition, compare most favorably

among the different interests which go to make Maysville an important business center, none are greater than the Manhattan Restaurant, which is located at the corner of Market and Front Streets. The business was established in 1899 by Jas. A. Wallace, who conducted a successful business until May of the present year, when he sold the business to his brother, John P. Wallace, the present proprietor. Previous to taking charge of this business he served on the police force for three years, and was ever faithful to the duties of that office. He has also been in the cigar business since 1884. He conducts a large grocery and saloon-room, where the appetites of the hungry may be satisfied at all times. All about the place is neat and attractive, this feature alone making it worth one's while to give him a call. The business has been very flattering, and is constantly increasing.

The interior arrangement and appointments of the St. Charles are of the most elegant character, and nothing that artistic taste can suggest has been provided for the comfort and pleasure of the guests. The parlors are luxuriously furnished, the dining-rooms spacious and elegantly appointed, while the sleeping rooms are fully, comfortably, and conveniently furnished, well lighted and ventilated. The St. Charles' cuisine is superb beyond question, and the service is all that could be required. Mr. W. H. Boswell, the present proprietor, carries the largest stock of fine furniture in the city, consisting of all styles, patterns and makes. This article may be compared with so-called "cheap" furniture, and must be seen to be appreciated. Owing to defective eyesight, Mr. White has decided to retire from business, and will sell his stock entire and leave the house, or will sell the stock without the house. Mr. White has a number of "broken lots" of furniture, from one to four pieces in each lot—which he will sell at cost, and some of them for less. This establishment is located at No. 42 W. Second Street.

Hon. John W. Alexander has served one term in the Kentucky Legislature, and his unswerving devotion to his duty during that exciting term, has endeared him to his constituents. Owing to the fact that the next Legislature selects a successor to United States Senator Deboe, it is

F. P. O'DONNELL.

Incomparable upon the Democrats of the county to put forth their most strenuous efforts to secure the election of Mr. Alexander, thereby as-

sisting in the promotion of a Democrat to the important office of United States Senator.

While the office of Coroner has little pecuniary value attached to it, the contest for the nomination resulted in a close vote between the contestants, Mrs. Jas. D. Woods, the popular candidate, and James S. Lewis, candidate of the Democratic party. Mr. Woods, by a small number of votes, Mr. Wood's prospects for re-election are very flattering.

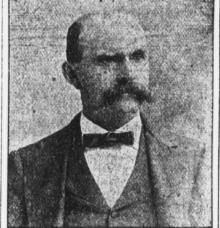

#### ISAAC L. MCILVAIN.

The subject of this sketch, Mr. Isaac L. McIlvain, is a native of Mason County, having been born on the old McIlvain farm, there, year 1850, becoming, on the Maysville and Mt. Sterling Turnpike, about 6 miles south of Maysville. He has been a resident of this county practically all his life. In the year 1854 he began to operate a grist and saw-mill, which for a period of time supplied the market with a large amount of supply for meal and lumber in that community. Always active, industrious and energetic, and imbued with a strong desire to promote the welfare of his community and fellow-

men, he naturally took an active interest in politics. An uncompromising Democrat for a period of more than 20 years, he has been enthusiastic in his efforts to devote himself to the principles and candidate of that party. For 23 years he served his masterful district in the Fiscal Court of this county, during all of which time his conduct was characterized by fidelity to the interest of his constituents and honor to himself.

ISAAC WOODWARD.

A constant advocate of economy in the administration of the affairs of the county, he was the author and eventually procured the passage of the order requiring that county prisoners be compelled to work the public roads. In the year 1897 he was nominated and duly elected Commissioner to the office of County Jailor, after a spirited contest in which he defeated his opponent by a small majority. Having entered upon the duties of his

the January following, he has shown himself to be a man equally as to unquestionably merit an unquestionable endorsement at the coming November election, for he now stands a candidate, having been renominated in the recent primary over a strong opponent, by a vote that was practically unanimous.

#### T. D. SLATTERY.

T. D. Slattery was born near Maysville, in Mason County, January 1, 1875. He was brought up on the farm, receiving his early education at the

local schools in the county and in Maysville, later attending Centre College at Danville, Ky. He served as Deputy County Clerk during the administration of T. M. Peirce, and was admitted to the practice of law at the February term 1896, of the Mason Circuit Court. He was formerly Secretary of the Mason County Executive Committee, and upon the reorganization of Bon. Jas. D. Woods, as chairman thereof, in 1899, he was elected in his stead, and at the reorganization of the committee in November, 1900, he was re-elected for the term of four years. During his connection with the Executive Committee, the Democratic majority of Mason County has been rapidly increasing until at the present time it can be said to be safely in the Democratic column. In June, 1900, Mr. Slattery formed a law partnership with Mr. J. M. Collins and the firm of Slattery & Collins has been eminently successful.

J. W. FITZGERALD

Is a candidate for reelection to the office of Collector and City Treasurer at the coming election and from the following press opinions it is a sure walkover:

(From the Public Ledger of May 14, 1904.)

Mr. Jas. W. Fitzgerald, who has for several years made a most acceptable City Treasurer, asks a reelection to that office. If faithfulness to duty and courteous treatment to all who have business with that official count for anything, Mr. Fitzgerald ought to have a walkover at the polls.

(From the Daily Bulletin of May 15, 1904.)

Mr. J. W. Fitzgerald, our esteemed City Treasurer, hereby announces himself a candidate for reelection. He has been a faithful servant, and has faithfully discharged the office to the satisfaction of the public generally. His faithfulness count for anything he should be elected by an overwhelming majority.

#### W. H. HAYES.

The subject of this sketch, W. H. Hayes, was born in Maysville in the year 1854, his mother having died when he was but two years of age, his father and the remainder of the family removed to Minerva, Ky., at which place he grew to manhood, and married. For a number of years he has been engaged in the manufacture of granite monuments in Maysville and in addition has for the past few years operated a business there. He has been a member of the Masonic Lodge since 1878, and his mother died in 1878. He has been a member of the Knights of Pythias since 1880, and to his credit is due the large success of the Democratic candidates in the West and of the country. Four years ago he was defeated for the Democratic nomination for County Assessor, but at the recent Primary the Democrats secured their representatives, and he was elected. This year he is in the Democratic campaign for that office by an overwhelming majority, and he now stands a candidate for election at the coming November election. He is very popular and has good reason to believe he will be successful.

## THE SAFETY INVESTMENT CO., OF MAYSVILLE, KY.

One of the new and prosperous financial institutions of Maysville is The Safety Investment Company, which has its handsome home office at No. 27 West Second Street.

Its plan of business is the latest and most approved, and it complies with every provision of the laws. The contract issued by it is based on the soundest and most conservative principles, and at the same time secures large profits to the investors. It has already paid \$20,000 in profits to the coupon holders, and its system of weekly redemptions gives the greatest satisfaction. The high standing and business ability of its officers are a guarantee that its affairs will be well conducted. Mr. E. P. Browning of the Clio Valley Pulley Works, is President; Mr. John C. Adams, formerly connected with the Frank Owens Hardware Company, is Secretary and Treasurer, and Judge Elias R. Pustler is Vice President and Attorney.

The President and Vice President, with Judge Matt Walton, of Lexington, are the Trustees of the reserve fund.

The company is doing a large and growing business, and its books and methods are at all times open to inspection.

The recent attacks on the investment companies made in some newspapers by some irresponsible parties, in no way affect such a company as the Safety, which is fully prepared to meet all its obligations. The more it is investigated the better it appears, and its patrons are bankers, lawyers, ministers, business men, and classes, and its staunchest supporters are those who have invested with it.

The investment business is new to many people, and it will pay you to examine the plan of the Safety.

## GEO. F. BROWN.

Among the oldest and most progressive business men of Maysville is the subject of this sketch, who was born in this city in 1841. Mr. Bridges is a cigar-box manufacturer, and has been in business at the above location for the past two years, during which time he has built up for himself a large trade. Previous to his embarkation in business for himself, had served 15 years as box-maker, foreman and manufacturer, and served three years as foreman in one of the largest cigar and tobacco factories in Allegheny City, Pa. Mr. Bridges employs three hands regularly, and is prepared at all times to do first class work at reasonable prices and a trial will convince you of the truth of this statement.

The location of the above establishment is at No. 45 West Second Street, Maysville, Ky.

## T. H. N. SMITH.

One of Maysville's most prominent professional men and citizens is Dr. T. H. N. Smith, surgeon dentist, located at No. 18 West Second Street. He was born in this city in 1852, and has spent most of his life in the active practice of his profession. He received his education in the private schools of Maysville, and in the Ohio Dental College at Cincinnati, graduating in 1871. He is one of the most expert and agreeable dentists in the profession of dentistry in this city, enjoying a large and lucrative practice. Dr. Smith is known for miles around. He does the best and cheapest work in his profession, and his work speaks for itself.

His work is guaranteed. He is the only dentist on the ground floor, and makes his own gas for the painless extraction of teeth. His plate and bridge work is set second in the United States.

## A. SORRIES &amp; SON.

The firm of A. Sorries & Son, lock and gunsmiths, and general repairers, located at No. 35 East Second Street, was established in Maysville by A. Sorries in 1875. Mr. Dodson has no other partners, and by his pleasing manner and fair dealing with all his patrons has placed himself in the front ranks of the business people of Maysville and vicinity.

## MAYSVILLE SCHOOL OF SHORT-HAND.

The above school, of which Miss B. Johnson is principal, has been in existence eight years. During that time many pupils have been graduated from it, the large majority of whom now hold excellent positions in different parts of the country. When one measures a knowledge of shorthand and typewriting by its usefulness to those who require it, its value is unquestioned. Formerly the ability to write well with a pen was a prerequisite to employment, but the work of the typewriter is more rapid, more legible, and neater, and a boy can scarcely find a position in a business office where a knowledge of typewriting will not be useful to him, and in many cases it is required. The typewriter is an excellent teacher of spelling, punctuation, capitalization and paragraphing, as all errors of this character stand out so prominently on the typewritten page that they can not escape the eye.

So far as the knowledge of shorthand is concerned, no branch is a greater aid to the economy of both time and energy. It trains at the same time the eye, the ear and the

## STEAMBOAT LANDING.

This fine illustration affords an excellent view of the steamboat landing, the river, and Aberdeen across the river. Capt. C. M. Phister is proprietor of the wharfboat, and also owns the steamer Laurence and the gasoline pleasure and business boat, "Newt Cooper." Mr. Phister has been in charge of the wharf for fifteen years, and has been ferry-owner nine. The Laurence was built at Madison, Ind., in 1891, and is named for his son. This vessel is pronounced the finest and most substantial ferry on the upper Ohio. The "Cooper" was recently built here under the owner's supervision, and has proved to be a substantial and speedy little craft. In addition to the aforesaid proprietorship, Captain Phister is steamboat and transfer agent, and cheerfully gives information as to rates, etc., on freight and passage by water to any point.

## BURNING OF THE STEAMER BOSTON.

On the night of August 6, 1866, the fine passenger packet, Boston No. 3, was discovered to be on fire, just after she left the Maysville wharf. The fire originated in the stern, and was the result of an accident. It was caused by the overturning of a lamp, and when it was seen that the boat must burn, Pilot Bougner ran the vessel up on the bar opposite the lower end of the city. This wise foresight on his part no doubt saved many lives, for had the boat been banked on this side, the loss must have been much greater. As it was, the remains of two negroes and one white man were all that was found, though many more were reported missing. Mrs. Spillman, of this city, was a passenger on that ill-fated vessel, and from that calamity received injuries which caused her death a few days later. The boat was valued at \$100,000, but was insured for only \$40,000. Several Maysville shippers also sustained losses as follows: Thos. Murphy, a lot of clothing, shipped by January & Howe; Patton, a sheep; January & Howe; Baldwin & Tabb, 200 barrels; P. Coons & Co., a lot of barrels; some cattle belonging to various parties escaped with very little injury. All the books, papers and money belonging to the boat were saved; the mail was lost. It was reported that a large amount of money belonging to a bank at Louisville was destroyed.

## E. G. BRIDGES.

Whose place of business is located at No. 115 Sutton Street, was born in this city in 1841. Mr. Bridges is a cigar-box manufacturer, and has been in business at the above location for the past two years, during which time he has built up for himself a large trade. Previous to his embarkation in business for himself, had served 15 years as box-maker, foreman and manufacturer, and served three years as foreman in one of the largest cigar and tobacco factories in Allegheny City, Pa. ## FIVE AND TEN CENT STORE.

The 5 and 10 cent store is the cheapest place to buy anything from a pair of pins to a threshing machine, as there is hardly an article but what can be found there and at a price which defies competition. We are not in business altogether for our health, not altogether for profit, but altogether to please our customers. When you meet a lady, gentleman, or child and their faces all bright and wreathed with smiles and seem to be glad they are living, you may be assured at once they have made their purchases or just going to make a purchase at the 5 and 10 cent store. That look of satisfaction you can see

to gather from the markets. Here may be found a happy combination of forty qualities and low prices, and they are continually putting forth their most earnest efforts to win your permanent trade, by giving you the cream of the best at prices the lowest. The key of success is doing what you say, and saying what you do. That's their way of doing business. Talk sometimes sells goods, but it is the good value they give you that makes you come again and again.

## JOS. H. DODSON.

This gentleman needs no special introduction to the people of Maysville and vicinity, as he has been one of the leading business men of the city for the past 35 years, and has been eminently successful, having built up one of the most substantial trades in this vicinity. Mr. Dodson conducts two places of business in the city. The main office and warehouse is located at the corner of Wall and Front Streets. This building has 18,000

mind, and strengthens and disciplines the memory.

In addition to her work as a teacher, Miss Johnson is a competent reporter, holding the position of stenographer of the Mason Circuit Court. She is also a notary public.

Any one desiring to enter Miss Johnson's class, will find her at her office on Court Street, where she will be glad to give information as to terms, etc., to those desiring same.

Special attention is given at Miss Johnson's office to the careful copying of all written or dictated matter. A competent typewriter can be found at the office at any time during business hours.

## W. A. SCHATZMANN.

The subject of this sketch conducts a saloon at 10 E. Second Street, and by his uniformly courteous treatment of his patrons and the excellence of the goods dispensed, has built up a trade that he may well be proud of. At the bar may be found the best of wines, liquors, cigars, tobacco, etc. Mr. Schatzmann is wholesale agent at this place for the celebrated Wiedemann's Newport Lager beer. He is a pleasant, courteous gentleman, and one from whom his numerous patrons are always sure of the best of treatment.

This young gentleman, the present popular and efficient clerk in the hat and gents' furnishing store, familiarly known as "Nelson's," was born and reared to manhood in this city. D. Cochran. He is a young man of broad mental gauge, liberal ideas, and gives promise of a career of great usefulness. He is faithful and reliable, and has a host of friends, both in public life and social circles.

In January of this year the co-partnership of M. J. Coughlin was formed. Mr. Coughlin was born in Germantown, Ky., in 1866. He was educated in the local schools and at Lebanon, Ohio, and became a resident of Maysville in the spring of 1880, and embarked in the livery business. The extensive business conducted by this well-known firm was established in 1891, by G. W. Rogers & Co., and is noted for the famous "Rogers' Old Stock," the trademark being registered in July of the present year. In 1898 the ownership of the concern passed into the hands of W. C. G. W. ROGERS &amp; CO.—Wholesale Liquors.

## E. A. ROBINSON &amp; CO.

Most smokers are aware that there is a good deal of trickery in the cigar trade, not to say danger, to the consumers, from the character of the materials used. In the past many of the manufacturers, particularly in New York, have been engaged in a concerted movement to force a resumption of tenement house cigar-making as injurious to the workman who is compelled to perform his labor in the same wretched room, where his half-clad and ill-fed family are obliged to eat, sleep, cook and perform all the duties of life. It is consoling to know that even in this day of keen competition there are cigar manufacturers who think more of personal honor than of ill-gotten gains. Maysville presents an instance of this kind, in the firm of E. A. Robinson & Co., who began the manufacture of cigars at their present location in May 1875; they occupy three floors, 20x100 feet, and employ about 30 hands regularly. The tobacco used in the manufacture is bought in the most favorable markets of the world, principally New York, Chicago, Cincinnati and Baltimore. The brand which bears the name of the factory—Limestone—is one of the best 10-cent cigars on the market, and the excellent quality of it is kept up to the standard, as is testified to by the fact that it is prob-

ably the oldest brand in existence, having been on the market for 26 years. The other special brand of 10-cent cigars made by this firm is La Constancia, while the Honey Bee, Quito and C. & O. Route are all established and well known 5-cent brands—the Honey Bee having enjoyed a continuous and growing patronage for 15 years. Three men are on the road looking after the trade, which is largely confined to Kentucky, Ohio and West Virginia, and especially along the C. & O. Railroad, and some idea of the magnitude of the business may be gained by the fact that the output last year was about 1,250,000 boxes. Mr. Robinson has a nearly arranged and attractive retail department. He personally conducts his business, and through his long years of experience has become known as a liberal and progressive business man and reputable citizen of high standing.

PEARCE & FOSTER'S ICE FACTORY

OF the many important benefits conferred upon humanity by chemical research, one of the most valuable is the production of artificial ice. The first to engage in this now great industry was Messrs. Pearce & Foster, who established the business in 1883, since which time the demand has increased so rapidly that in 1897 they were forced to build a plant with a larger capacity, to meet the present requirements. This plant has a capacity of twenty tons daily, and is situated at the corner of Union and Third Streets. Messrs. Pearce and Foster are to be congratulated upon their success in this enterprise, and with the present push and energy it will not be long before the present plant will be insufficient to meet the demands. Messrs. Pearce & Foster are also agents here for J. Hauck's famous Cincinnati beer.
